6 EXECUTIVE ORDERS

Executive Order No. 2015-03

WHEREAS, the General Appropriations Acts for Fiscal Years 2013-14 and 2014-15 directed the Department of Health and Human Services to develop and implement a methodology to improve accountability and outcomes for the Graduate Medical Education (GME) and Supplemental Teaching Payment programs (STP); and

WHEREAS, to ensure that the resulting changes in policy would be developed through an open and collaborative process that allowed for the broadest range of participation from interested and affected stakeholders, the Department established the GME Advisory Group; and

WHEREAS, after a series of public meetings, the GME Advisory Group submitted its report in January 2014, entitled *Leveraging Graduate Medical Education to Increase Primary Care and Rural Physician Capacity in South Carolina*; and

WHEREAS, the report found that Medicaid GME and STP payment methodologies in South Carolina do not incorporate meaningful performance measures and are not structured to support the state's goals of developing a physician workforce that meets the needs of rural and other underserved communities; and

WHEREAS, although the GME Advisory Group's 2014 report recommended further research on a variety of topics, those avenues have not yet been formally explored; and

WHEREAS, the need to expeditiously complete this research has been further reinforced by a subsequent notice from the Centers for Medicare and Medicaid Services (CMS) that CMS would no longer allow South Carolina to use its existing STP payment methodology after July 1, 2014, which the Department successfully petitioned to extend to September 30, 2015 on the basis that it would use the additional time to gather additional public input and comment.

NOW, THEREFORE, pursuant to the powers conferred upon me by the Constitution and the Statutes of the State of South Carolina and the United States, I hereby establish the Medical Education Advisory Council ("Council"), which shall be constituted and shall execute its duties and responsibilities as follows:

1. Mission: To advise the Department of Health and Human Services in its efforts to:

- a. Improve accountability in the Medicaid medical education programs, promote the development of a "physician pipeline" that better meets the needs of rural and other underserved communities; and
- b. Obtain CMS approval of a new STP payment methodology.

2. Membership: The Council shall consist of at least fifteen members, one of which shall be appointed by the Chairman of the Senate Finance Committee and one of which shall be appointed by the Chairman of the House Ways and Means Committee. The remaining members shall be appointed by the Governor as follows, one of whom shall be designated by the Governor as Chair:

- a. The president of a public college or university
- b. The dean of a college of medicine accredited by the Association of American Medical Colleges
- c. The dean of a college of osteopathic medicine accredited by the American Association of Colleges of Osteopathic Medicine
- d. Five executives or board members of Medicaid-participating hospitals or health systems
- e. A physician nominated by the South Carolina Medical Association
- f. The director of a residency program in family medicine
- g. Three or more additional members, representing the academic, non-profit, philanthropic, or other communities with an interest in the Council's mission

3. Duties and Responsibilities:

- a. Building upon the previous work of the GME Advisory Group, the Council shall develop recommendations for South Carolina's GME and STP programs that:
- i. Promote accountability by establishing performance measures for and regular reassessments of GME/STP-funded programs;
 - ii. Evaluate various methods through which a portion of the funds currently dedicated to these programs could be targeted toward new initiatives designed to meet South Carolina's physician workforce goals;
 - iii. Place a particular emphasis on the needs of rural and underserved communities in South Carolina; and
 - iv. Provide the Department of Health and Human Services with a report that reflects the opinions, insights, and experiences of the fullest range of stakeholders and which can inform the Department's submissions to CMS.
- b. The Council shall conduct a minimum of two public meetings and may conduct more as it deems necessary. It must solicit written recommendations from interested or affected parties and provide any opportunity for public comment at each of its meetings.
- c. In making final recommendations, the Council must evaluate and consider any public testimony or written submissions.

4. Governor

Executive Order No. 2015-04

WHEREAS, there exists a culture of domestic violence in the State of South Carolina, supported by South Carolina's dismal rating of second highest in the United States for the rate of women murdered by men, having previously ranked among the top ten states for the past twelve years; and

WHEREAS, domestic violence is a crime that most often occurs within the privacy of one's home but is in actuality a crime against the public, destabilizing families, which are the foundational building blocks of our society, and creating cycles of violence that cause harm to the health, safety, and welfare of present and future generations of South Carolinians; and

WHEREAS, domestic violence not only violates the foundational morals and values of people of our state but also burdens taxpayers with incalculable costs to the criminal justice system and social and other governmental services; and

WHEREAS, the State of South Carolina will neither continue to ignore nor tolerate domestic violence and is resolved to take action where possible to reduce the rate of domestic violence incidents and deaths; and

Synopsis:

On March 27, 2008 (73 FR 16436), the EPA promulgated amendments to the National Ambient Air Quality Standards (NAAQS) for ozone. On July 20, 2012 (77 FR 30088), the EPA designated and classified a portion of York County, South Carolina within the Rock Hill Fort Mill Area Transportation Study (RFATS) Metropolitan Planning Organization (MPO) as a marginal nonattainment area for the 8-hour ozone NAAQS as part of the Charlotte-Gastonia-Rock Hill NC-SC Nonattainment Area.

Air quality monitoring data from 2012 to 2014 indicate that all monitors within the Charlotte-Gastonia-Rock Hill NC-SC Nonattainment Area currently meet the 2008 8-hour ozone NAAQS of 0.075 ppm. The proposed SIP revision would request that the EPA redesignate the York County portion of the Charlotte-Gastonia-Rock Hill NC-SC Nonattainment Area to attainment for the 2008 8-hour ozone NAAQS. The plan would also provide

a maintenance plan which fulfills the requirements of Section 175A of the Clean Air Act as amended, and ensure the area remains in attainment of the 2008 8-hour ozone NAAQS through 2026. Documents relating to this redesignation request and maintenance plan will be available via the Department's website at:

NOTICE OF GENERAL PUBLIC INTEREST

We have calculated the increase in the limit on compensation for noneconomic damages on a medical malpractice claim. Pursuant to Section 15-32-220(F), the limit on civil liability for noneconomic damages on a medical malpractice claim is adjusted each fiscal year based on the increase or decrease in the ratio of the Consumer Price Index for All Urban Consumers as of December 31 of the previous calendar year. The adjustment is a cumulative index using a base year 2004. The 2004 base year was adopted to be consistent with the timing of the enacting legislation. As of December 31, 2014, the Index published by the Bureau of Labor Statistics, *Monthly Labor Review*, Table 38, "Consumer Price Index for All Urban Consumers", increased by 23.4% from a value of 190.3 in December 2004 to 234.812 in December 2014. Therefore, the limit not to exceed \$350,000 would increase to \$431,865 against a single health care provider and a health care institution for each claimant for civil liability for noneconomic damages on medical malpractice claims when final judgment is rendered. Also, the limit not to exceed \$1,050,000 would increase to \$1,295,600 for all health care providers and all health care institutions for each claimant for civil liability for noneconomic damages on medical malpractice claims. The adjusted limitations on compensation for noneconomic damages become effective upon publication in the *State Register* pursuant to Section 1-23-40(2).

**REVENUE AND FISCAL AFFAIRS OFFICE

NOTICE OF GENERAL PUBLIC INTEREST

We have calculated the increase in the limit on punitive damages awarded to each claimant that is entitled to an award. Pursuant to Section 15-32-530(D), the limit on punitive damage awards is adjusted each calendar year based on the increase or decrease in the ratio of the Consumer Price Index for All Urban Consumers as of December 31 of the previous calendar year. The adjustment is a cumulative index using a base year 2010. The 2010 base year was adopted to be consistent with the timing of the enacting legislation. As of December 31, 2013, the Index published by the Bureau of Labor Statistics, *Monthly Labor Review*, Table 38, "Consumer Price Index for All Urban Consumers", increased by 7.1% from a value of 219.179 in December 2010 to 234.812 in December 2014. Therefore, the limit not to exceed \$500,000 would increase to \$535,665 to each claimant entitled to a punitive damage award. The adjusted limitations on an award for punitive damages become effective upon publication in the *State Register* pursuant to Section 1-23-40(2).

In 1988, the South Carolina Beachfront Management Act established a comprehensive statewide beachfront management program and set forth policies that called for the state to "create a comprehensive, long-range beach management plan...for the protection, preservation, restoration, and enhancement of the beach/dune system" (SC Code of Laws Section 48-39-260(2)). The State Beachfront Management Plan (Plan) was created and adopted pursuant to the Administrative Procedures Act in 1992, and resides within the Department's Coastal Division regulations (R.30-21). The Plan contains goals, objectives, and policies that guide the management of the state's beachfront. Goal statements are derived from Section 48-39-260 and represent broad courses of action relating to improved management of the beach/dune system, protection of endangered species, implementation of retreat policies, response to disasters, and improved public access and awareness. It also contains objectives and specific policy statements that identify strategies to implement the stated goals. The Plan can be used by the Department to exercise regulatory authority.

18 DRAFTING NOTICES

The Department is proposing to modify R.30-21 *Beachfront Management Plan* to ensure policies are congruent with current regulations under other sections of the Department's Coastal Division regulations and reflect the most current and accurate data available.

General Assembly review is required for these amendments.

The Blue Ribbon Committee examined current conditions, considered outcomes of an ad hoc technical committee on shoreline change, and made recommendations for improvements in management of the state's beachfront jurisdictional area. The proposed modifications to state regulations will be based on these final recommendations and will provide clarity and specific standards to be utilized in the management of the State's beaches and dunes, evaluation of beachfront permit applications and notifications, and administrative procedures for issuance of emergency orders within the Department's beachfront jurisdiction. Proposed amendments will also modify specific procedures under R.30-13 and R.30-15 for issuance of emergency orders for golf courses to comply with Act 147 that was effective April 7, 2014.

General Assembly review is required for these amendments.

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL CHAPTER 61

Statutory Authority: 1976 Code Section 44-1-140

Notice of Drafting:

The South Carolina Department of Health and Environmental Control proposes to repeal Regulation 61-49, Crabmeat. Interested persons are invited to submit their views and recommendations in writing to Charles Gorman, P.G., Division of Water Monitoring, Assessment and Protection, Bureau of Water, 2600 Bull Street, Columbia, South Carolina 29201, or by email at gormancm@dhec.sc.gov. To be considered, written comments must be received no later than 5:00 p.m. on March 30, 2015, the close of the drafting comment period.

Synopsis:

This regulation addresses the storing, processing and handling of crabmeat and was last updated in 1976. Currently, there are no crabmeat processing facilities in the state operating under this regulation, and no facility has operated under this regulation since 2001. This regulation is not required by statute. The implementing statute, South Carolina Code Section 44-1-140 (1976 Code of Laws, as amended), authorizes, but does not require the Department to promulgate and enforce rules and regulations for the storing, processing, and handling of crustaceans, which includes crabs.

The regulation should be repealed because it is out-of-date and duplicative of more up-to-date state and federal regulations that address the storing, processing and handling of seafood, including crab. The South Carolina Code of Laws, Section 39-25-180(K) and (L) incorporates by reference the federal Food, Drug and Cosmetic Act and associated federal regulation that address the storage, processing and handling of fish and fishery products (Code of the Federal Registers, Fish and Fishery Products, Title 21 Section 123; 21 CFR 123). The definition of “Fish” in federal regulation 21 CFR 123 includes crustaceans (crabs). A crab processor would be required to have and follow a Hazard Analysis and Critical Control Point (HACCP) plan as defined in 21 CFR 123. A HACCP plan contains requirements for the storage, processing and handling of food products, in this case crab meat, to protect human health.

In summary, Regulation 61-49 is not required by state law and should be repealed because it is duplicative of more up-to-date state and federal regulations that serve to protect human health.

Legislative review is required.

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
CHAPTER 61

To be considered, written comments must be received no later than 5:00 p.m. on March 30, 2015, the close of the drafting comment period.

Synopsis:

The Department proposes to amend R.61-50, to update the water quality standard for fresh water recreation. Specifically, changes to R.61-50.C(7) are necessary to enable the Department to maintain one water quality standard for fresh water recreation. The Department is proposing to change from a fecal coliform standard to an E. coli standard. There may also be changes and revisions to correct grammar, punctuation or citations.

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
CHAPTER 61

Statutory Authority: 1976 Code Section 44-55-40

Notice of Drafting:

The Department of Health and Environmental Control proposes to amend Regulation 61-71, Well Standards. Interested persons are invited to submit their views and recommendations in writing to Charles Gorman, P.G., Division of Water Monitoring, Assessment and Protection, Bureau of Water, 2600 Bull Street, Columbia, South Carolina 29201, or by email at gormancm@dhec.sc.gov. To be considered, written comments must be received no later than 5:00 p.m. on March 30, 2015, the close of the drafting comment period.

Synopsis:

The Department proposes to make the following amendments to Regulation 61-71. The separation distance between individual residential and irrigation wells and septic tank/tile fields will be changed from 50 feet to 75 feet. The change from 50 feet to 75 feet will make R. 61-71 consistent with the On-site Wastewater Systems Regulation 61-56. R. 61-56 requires a 75-foot separation distance between an individual well (private well) and septic tank/tile field (onsite wastewater system).

Underground injection wells will be added to the list of wells that are regulated under R.61-71. Underground injection wells should be added to R.61-71 because the Underground Injection Control Regulation, R.61-87 cites R.61-71 as the construction standards for underground injection wells. The definitions for injection well and injection, as defined in R. 61-87, will be added to R.61-71.

The Department also may include stylistic changes, which may include corrections for clarity and readability, grammar, punctuation, definitions, references, codification and overall improvement of the text of the regulation.

Legislative review is required.
